Class X	March,2013	CBSE	8.8/10

**Git Hub Profile** – ( <https://github.com/er-aashish> )

**WORK EXPERIENCE**

**Software Developer, Wipro Technologies, Bangalore**

**Aug '19 – Current**

Work in Supply Chain Management System (SCM) under Cisco Systems.

**Contract Digitization Platform (CDP)**

Contract Digitization Platform is a web application which has brought digitization to the hardcopy legal contract management of ECLM category of Supply Chain domain of Cisco Systems. Along with that, it provides a platform for creation, renewal and maintenance of new contracts.

- Working as key developer in writing unit test cases for UI frontend providing enhancement to current code and helping UI developer to find/prevent bugs in the code thus improving application and ensuring it meets all the quality standards before it is deployed.
- Writing database queries to provide data for ease in functional testing of the code and thus reducing time taken to complete the testing of the code.
- Providing technical inputs in US hours leading to faster resolution of problems faced by commodity managers (users of CDP) and thus increasing CSAT by ~ 80%.
- While working on backend issues also work on front end issues to get hands on experience in Full Stack development.

**COURSES AND PROJECTS**

- Edunioix** - Advance JS course – Learned OOP's concept in JS.
- Stanford University** - Code in Place (Python course) – Learned basic concepts of python programming, advance python libraries like PIL.
- Udemy** –User Experience Design by Daniel – Learned about designing basic wireframes, building stunning designs for websites and apps .
- Udemy** – Become a product manager by Cole Mercer – Learned about things required for being a product manager. Made a PRD ( <https://docs.google.com/document/d/1UO4Aq6mFsaHCLH2981gBs1rTnuV9VcRiXGJ5yAfnvyQ/edit?usp=drivesdk>).
- Getthatjob.in**(<https://www.getthatjob.in/>) – Me and my colleague started this website which aims to gather users who are preparing for the product manager's journey and we help them by conducting their mock interviews.
- Product Manager Intern, Pragmatic Leaders** **Sep'21 – Present**  
Pragmatic Leaders is a platform that offers various programs to help an individual to transit into Product management career.
  - Launched Interview Preparation Course** – Cheap and affordable course for the individuals trying to prepare for their Product management Interview.
  - Build Video Library and manage team of 5 people** – Free video library containing different videos related to product management curated from the recorded sessions saving extra efforts and money to record fresh videos. Replaced the vendor based video editing to in house video editing and saving approx. 30k/monthly.
